

GSACONTAINER.COM: GSA Approved Containers and Safes
Supplying Military, Government, and Civilian Contractors Worldwide

2603 SMC Package – Security Level 6 – Top Secret

GSAContainer.com offers the full range of GSA approved containers and safes, as well as other security equipment, which will meet your classified material or security storage and handling requirements.

The terms GSA container and GSA safe can be used interchangeably. Whether you represent the military, government or a civilian contractor, we likely have what you need. Many containers are shipped from stock, and are available in all popular configurations including one, two, four and five drawer filing cabinets, map plan containers and general purpose containers. In the case of the latter two categories, we can install custom inserts, as required, such as weapons carts, shelves, drawers and related hardware tailored to your specific requirements.

We ship worldwide from our facility conveniently located near the Port of Norfolk, VA, home to the largest concentration of military assets in the world today.

DoD regulations require the use of a Security Level 6, NSA Evaluated, shredder for the destruction of printed documents classified Top Secret. Level 6 Shredders can also be used to reduce documents rated Secret and Confidential. The 2603 Shredder exceeds NSA Requirements for minimum particle size. This high quality unit is electronically controlled, features an integral pull out bin, which reduces messy spillage, and an internal automatic oiling system. The latter dramatically increases cutter life by ensuring proper lubrication. The 2603 is electronically controlled, with light activated automatic start and stop, for increased reliability. This unit is offered free delivered to any location in the continental United States.
